## Professional Summary

Aspiring UX/UI designer currently pursuing an Information Technology degree, with hands-on experience in creating user-friendly interfaces and developing mobile and web applications. Passionate about enhancing user experiences through thoughtful design and cutting-edge technology.

## Education

### BSc (Hons) in Information Technology

University of Sri Lanka Institute of Information Technology

Expected Graduation: 2026

#### Relevant Coursework:

- Object-Oriented Programming
- Web Development
- Mobile Application Development
- User Experience Design

## Skills

### Technical Skills:

- Programming Languages: Java, JavaScript, C, C++, HTML/CSS
- Frameworks/Tools: React, Node.js, Express, Android Studio
- Database Management: MySQL, MongoDB
- Design Tools: Figma
- Version Control: Git, GitHub

### Soft Skills:

- Communication: Skillfully expressing ideas and insights while fostering collaboration within diverse teams.
- Strategic Time Management: Prioritizing tasks and balancing multiple projects to consistently meet deadlines and exceed expectations.
- Collaborative Teamwork: Building strong partnerships and contributing to a positive team dynamic to achieve shared objectives.
- Adaptive Learning: Quickly embracing new tools, technologies, and methodologies to stay ahead in an ever-evolving landscape.

# Projects

## Portfolio Website

*Personal Project*

May 2023 – Present

- Designed and developed a personal portfolio website to highlight my skills and completed projects.
- Implemented a responsive layout using HTML and CSS to ensure compatibility across various devices.
- Enhanced interactivity and user experience with JavaScript, including dynamic content and smooth navigation.

## Hospital Management System

*Team Project*

August 2023 – October 2023

- Designed and implemented a hospital management system to enhance administrative efficiency and patient management.
- Created an intuitive user interface using HTML and CSS, ensuring ease of use for hospital staff and patients.
- Developed interactive features and dynamic content with JavaScript.
- Utilized a MySQL database to handle patient records, appointment scheduling, and billing processes.

## Student Help Desk

*Team Project*

February 2024 – April 2024

- Created a web-based help desk system for students to submit and track inquiries, and interact with support staff.
- Designed the user interface with HTML and CSS for a clean and intuitive experience.
- Developed interactive features and client-side logic using JavaScript.
- Implemented a MySQL database to manage user data, inquiries, and responses efficiently.

## Vehicle Service and Repair Management System

*Team Project*

June 2024 – November 2024

- Developed a vehicle service and repair management system using the MERN stack to improve the efficiency of automotive repair shops.
- Utilized MongoDB for database management, Express.js and Node.js for server-side logic, and React for building a dynamic, user-friendly frontend.
- Implemented features such as service record management, appointment scheduling, and repair tracking, facilitating better service management and customer interaction.

# Certifications/Achievements

## Diploma in English

Esoft Metro Campus 2019

## Diploma in Information Technology

Esoft Metro Campus 2019
